

ENERST CONTRACTORS

CK2016/178156/09

About ENERST CONTRACTORS

We offers highly skilled and experienced construction contracting services. The company has 4 professionally supervised teams, each with the capacity to manage full projects.

While the company was only registered in 2013, it is lead by a management team with decades of combined experience in various industries. These individuals are all capable entrepreneurs with the business know-how to survive and flourish in South Africa's arid economic climate.

Management's experience is further complimented by skilled laborers and administrative staff on every level.

We have a dedicated team always on standby 24/7 to carter to all our clients needs.

Mission:

We strive to build our business through our people, building our reputation.

Vision:

To provide the industry with Professional, Safe and Quality production.
